<tr>
<td>A1-DG40</td>
<td>Waterproof / dustproof (to IP68) gland with perpendicular cable entry. Cable Size: 0.5mm – 36mm Material: Plastic Grey, Plastic White, Anodised Aluminium, 316 Stainless Steel</td>
<td>Allows a cable to pass through a flat surface while protecting against the ingress of water and dust. Ideal for electrical power, aerial or data communications cables and fibre optics. Recommended for use on boats caravans and RV’s as well as data communication, construction and renewable energy industries due to its rugged design and capability to perform in the harshest of environments.</td>
<td>Drill holes must be a minimum of 8mm from the edge of the bung and 6mm from other drill holes.</td>
</tr>
