

### Side Entry Deck Gland SE6

<b>Part Number</b>	<b>A1-SE6</b>
<b>Description</b>	Waterproof / dustproof (to IP68) gland with parallel low profile cable entry. Cable Size: 10mm – 12mm (3 pre-moulded bungs, no drilling required) Material: Plastic Grey, Plastic White
<b>Application</b>	Allows a cable to pass through a flat surface while protecting against the ingress of water and dust. Ideal for electrical power, aerial or data communications cables and fibre optics. Recommended for use on boats caravans and RV's as well as data communication, construction and renewable energy industries due to its rugged design and capability to perform in the harshest of environments.
